

## ELECTRIC CARGO TRUCK

### • Introduction:

The Electric Cargo Truck (ECT) is a robust and efficient solution designed to revolutionize urban logistics and last-mile deliveries. With its compact dimensions and impressive load capacity, the ECT is tailor-made for businesses, municipalities, and organizations seeking sustainable transportation options

### • Key Features:

1. Compact Size, Big Impact
2. Passenger Capacity
3. Impressive Range
4. Climbing Ability
5. Smooth Suspension
6. Grip Mine Tires:
7. Durable Build
8. Efficient Motor and Controller
9. Safety First
10. User-Friendly Dashboard
11. Charging Convenience:
12. Maximum Load Capacity
13. Swift Speed

**HEAD OFFICE: First Floor, Building No. 62, Nice Plaza, Canning Road,  
Saddar Cantt, Rawalpindi. Tell: 051-5529184, 051-8316141**

**Karachi Plant:**  
PSFCL, Pakistan Steel Mill, Bin Qasim, Karachi, Pakistan

**Islamabad Plant:**  
Chungi No. 26, Peshawar Road, Motorway Chowk, Islamabad.

• **Product Parameters:**

Parameters	Value
Vehicle size	4200 mm × 1300 mm × 1750 mm
Rated passenger capacity	2 persons
Battery	72V, 200A (LiFePO4, stainless steel shell)
Range	Approximately 200 kilometers
Climbing degree	<b>Upto 50%</b>
Shock suspension	Front: big spring; Rear: steel plate shock absorption
Tires	550-13 grip mine tires
Paint	Acid wash phosphating + high temperature baking paint
Brake	4-wheel disc brake
Motor	4 kW
Controller	36 tubes
Material	2.0 mm thickened cold rolled steel plate
Hinge	Galvanized and thickened
Frame	5 × 10 national standard channel steel
Voltage	60-72V universal
Dashboard	Plastic molding
Lighting and signaling	Integrated LED headlight, integrated rear tail light
Running current	12A
Charging time	6-8 hours
Maximum load capacity	3 tons
Maximum Speed	50 km/h
