Three wheeler electric loading Vehicle (Khalid) is powered by batteries, which is economical and environmentally friendly, and has a beautiful appearance.

HEAD OFFICE: First Floor, Building No. 62, Nice Plaza, Canning Road,
Saddar Cantt, Rawalpindi. **Tell:** 051-5529184, 051-8316139 & 41

Karachi Plant:
PSFCL, Pakistan Steel Mill, Bin Qasim, Karachi, Pakistan

Islamabad Plant:
Chungi No. 26, Peshawar Road, Motorway Chowk, Islamabad.

• **Product Parameters:**

Descriptions		Model	KHALID Parameters 100 KM	
Vehicle overall parameters	Payload	kg	1000	
	Dimensions		3120*1180*1260	
	Length	mm	3120	
	Width		1180	
	Height		1260	
	Wheelbase		960	
	Body length	cm	160	
	Wheel tread rear	mm	2020	
	Minimum ground clearance	mm	15	
Traveling Parameters	Cruising Range	km	100 km	
	Max. Speed	km	45	
	Max. claiming angel	%		
	Braking Distance	m	2	
	Min. turning diameter	m		
Chassis	Construction Material		steel	
	Drive motor power	km	2000WD	
	power supply	v	60/72V	
	speed control		60/72V30 tube G	
	Battery			Lead acid battery
	Type	Acid / Lithium		Acid
	Volume	AH		60V80AH
	Charging time	hrs.		6-8h
	Front / rear axels			Aluminum cylinder external spring shock absorption Spring steel plate
	Braking Method			Integrated Handbrake
	Tyre & Rim Specification			Front & rear 400-12 explosion-proof tires
Body parameters	Material		steel	
	Dimensions		3120*1180*1260	
	Length	mm	3120	
	Width		1180	
	Height		1260	
Curb Weight	Complete three-wheeler including body & batteries	kg	276
