Three wheeler electric loading Vehicle (YASOOB) is powered by batteries, which is economical and environmentally friendly, and has a beautiful appearance.

HEAD OFFICE: First Floor, Building No. 62, Nice Plaza, Canning Road,
Saddar Cantt, Rawalpindi. **Tell:** 051-5529184, 051-8316139 & 41

Karachi Plant:
PSFCL, Pakistan Steel Mill, Bin Qasim, Karachi, Pakistan

Islamabad Plant:
Chungi No. 26, Peshawar Road, Motorway Chowk, Islamabad.

• **Product Parameters:**

Descriptions		Model	YASOOB Parameters 130 KM	
Vehicle overall parameters	Payload	kg	1000	
	Dimensions		3360*1230*1450	
	Length	mm	3360	
	Width		1230	
	Height		1450	
	Wheelbase		2130	
	Body length	cm	180	
	Wheel tread rear	mm	1150	
	Minimum ground clearance	mm	15	
Traveling Parameters	Cruising Range	km	130 km	
	Max. Speed	km	50	
	Max. claiming angel	%		
	Braking Distance	m	3.5	
	Min. turning diameter	m		
Chassis	Construction Material		steel	
	Drive motor power	km	2000WD	
	power supply	v	60/72V	
	speed control		60/72V30 tube G	
	Battery			Lead acid battery
	Type	Acid / Lithium		Acid
	Volume	AH		72V100AH
	Charging time	hrs.		6-8h
	Front / rear axels			Φ43outer spring Hydraulic shock absorption of aluminum cylinder Shock absorption of leaf spring
	Braking Method			Integrated Handbrake
Tyre & Rim Specification			3.75-12Inner and outer tire 4.00-12Inner and outer tire	
Body parameters	Material		steel	
	Dimensions		3360*1230*1450	
	Length	mm	3360	
	Width		1230	
Height	1450			
Curb Weight	Complete three-wheeler including body & batteries	kg	348
